

AHMADIYYAT THE TRUE ISLAM

الله

Allah is the Creator of all things
and He is Guardian over all things. [39:63]

وَاللَّهُ خَلَقَ كُلَّ دَابَّةٍ مِّن مَّاءٍ ۚ فَمِنْهُمْ مَّن يَمْشِي
عَلَىٰ بَطْنِهِ ۚ وَمِنْهُمْ مَّن يَمْشِي عَلَىٰ رِجْلَيْنِ ۚ
وَمِنْهُمْ مَّن يَمْشِي عَلَىٰ أَرْبَعٍ ۗ يَخْلُقُ اللَّهُ مَا يَشَاءُ ۗ
إِنَّ اللَّهَ عَلَىٰ كُلِّ شَيْءٍ قَدِيرٌ ﴿٢٤:٢٤﴾

And Allah has created every animal from water. Of them are some that go upon their bellies, and of them are some that go upon two feet, and among them are some that go upon four. Allah creates what He pleases. Surely, Allah has the power to do all that He pleases.[24:46]

Sayings of The Holy Prophet (SAW)

Abu Hurairah (ra) narrates that the Holy Prophet^(SAW) mentioned that Allah The Almighty states:

“My servant transgresses against Me, while it does not behove him to do so. He abuses Me, while it does not behove him to do so. His transgression against Me is that he says that ‘Allah the Almighty, having once created me, will not resurrect me (after I am dead).’ And his abuse of Me is that he claims that ‘Allah has taken unto Himself a son,’ whereas I am Self-Sufficient, The One on Whom everything else depends. I have never begot, nor was I begotten, and there never was one like unto Me.” [Masnad Ahmad]

*We are always in
need of*
GOD

Your plans cannot succeed without the help of God. If you do not seek His assistance, and do not make it your rule to seek strength from Him, you will never achieve anything and will die in immense sorrow. Do not wonder why other nations seem to succeed, while they are not even aware of the existence of God who is your Perfect and Mighty Lord. The answer is that they have been subjected to the trial of the world on account of their abandoning God. At times, He opens the doors of the world to a person who forsakes Him and seeks the joys and pleasures of the world and runs after its riches, in order to try him. Such a one is wholly bereft and deprived in respect of religion. In the end, he dies with his mind devoted wholly to the world and is cast into an eternal hell.

Eid Message of His Holiness, Hazrat Mirza Masroor Ahmad, Khalifatul Masih V (aba)

On the occasion of Eid-ul-Fitr, I offer greetings of Eid Mubarak to Muslims across the world.

It is my hope and prayer that we continue to practice the good deeds that we observed during Ramadan and turn them into a permanent feature of our lives. Only then can we say that we are celebrating a true Eid and fulfilling its real purpose.

We are living in an era where much of mankind is suffering and there is ever-increasing conflict in the world. Thus, on this day of happiness, we must remember those who are less fortunate and open our hearts to all humanity. May we feed the hungry and support those who are vulnerable and deprived.

May Allah the Almighty alleviate the suffering of all mankind and enable peace and justice to prevail across the world.

“A person’s speech and oratory, no matter how eloquent or well-spoken they may be, would not prove to be their means of success in this life or the next. Hazrat Mirza Masroor Ahmad said:

Even today, when the Ahmadiyya Muslim Community has millions of members across the world, the truth remains that we represent a very small proportion of the world’s Muslims and, compared to the overall population of the world, the Ahmadiyya Muslim Community’s numbers are a mere drop in the ocean.”

The Friday Sermon Divine attribute of Al Khaliq (The Creator)

Explaining the meanings of the word Khaliq Hudhur said according to lexicon Khaliq connotes one who makes something, and to create without any matter, as the Qur'an states: 'Allah created the heavens and the earth...' (29:45) It also states, 'He is the Originator of the heavens and the earth...' (2:118) and '...Who created you from a single soul and created...' (4:2) and 'Verily, We created man from an extract of clay;' (23:13).

Hudhur said creation of something new is specific to God, as the Qur'an states: 'Is He, then, Who creates like one who creates not...?' (16:18) Hudhur added that when used in conjunction with the word Al, the word Khaliq only signifies God. The basic meaning of the word Khaliq is to ascertain things. In terms of creation God is also addressed with other names in the Qur'an, for example, Al Bari (the Maker) or Al Badi (the Originator). He creates without the restriction of time and place. The Divine attribute of Al Fattah (The Opener) signifies One Who commences creation. However, Hudhur said today he would focus on the attribute of Al Khaliq.

God states in the Qur'an: 'Or, Who created the heavens and the earth, and Who sent down water for you from the sky wherewith We cause to grow beautiful orchards? You could not cause their trees to grow. Is there a God besides Allah? Nay, they are a people who deviate from the right path.' (27:61).

Our God

by *Hazrat Mirza Bashir Ahmad,
M.A. (ra)*

Introduction

Our God is an English translation of Hamara Khuda written by Hadrat Mirza Bashir Ahmad (ra), M. A. in the prime of his youth. The book was written largely for the youth who were being swept by the onslaught of atheist literature. It is as relevant today as then; rather more so.

The book mainly addresses the issue of Existence of God from the point of view of rational arguments. It furnishes cogent reasons as to why we cannot see God. The beauty of God lies in His being Hidden from our physical eyes, and yet being apparent to us through his creation and revelation.

The universe, human nature, morality, universal acceptance of God, supremacy of Prophets and testimony of the righteous are the bases on which the author successfully develops the arguments for the existence of God. For a reflective mind everything in the world points to God. Even the smallest constituent of the universe presents an unfathomable puzzle for the human mind.

The Christian church was, and continues to be, mainly responsible for advancing a totally false and absurd view that there is fundamental contradiction between science and religion. The Holy Quran and the Holy Prophet (sa) categorically reject this view. The author deals with the issue comprehensively and shows that there is not, and cannot be, a contradiction between science and religion.

Next, the writer deals with advantages of belief in God; it brings about unity, dissuades from evil, encourages to do good, helps to understand the nature of things and brings about true satisfaction and contentment.

Seven main Atheistic arguments are successfully refuted by very powerful arguments.

Lastly, a comparison is made between drawbacks of Communism—which is considered to be a branch of Atheism—and advantages of economic system of Islam.
